

Empowering regional development and innovations – Building resilience in rural communities

Empowering regional development and innovations is a joint summer school for BSc, MSc and PhD students from all disciplines. The course is implemented as a hackathon with preliminary tasks before the actual hackathon.

The students will work in multidisciplinary groups on a specified challenge on building resilience in rural communities. The course is conducted online. You will:

- Find and propose solutions for building resilience in rural communities
- Learn innovation methods and tools
- Build and develop your network of experts
- Develop your multiprofessional working life skills
- Acquire 5 ECTS

Empowering regional development – Building resilience in rural communities (5 ECTS)

Online course 7 – 14 June 2021
(with preliminary tasks 15 May – 6 June)

Send your application to your INVEST Summer School coordinator by 30 April

INVEST Summer School

Empowering regional development and innovations

Online course: 7 - 14 June 2021 (with preliminary assignments 15 May - 6 June)

Apply by: 30 April

Credits: 5 ECTS

Learning objectives:

After completing the course, you will be able to utilise multidisciplinary expert networks, creative thinking and various technologies for problem solving in innovation methods. You will have a working knowledge of innovation tools and ways to present your findings. You will understand the multidisciplinary nature of regional development and its significance on rural and urban communities as well the basic concepts of resilience of communities.

Contents:

During the course, multidisciplinary groups will work on a challenge posed by a Finnish organisation related to rural resilience in special conditions. The groups will be introduced to different methods and tools for innovation, expert lectures on regional development, effects of COVID-19 on rural and urban communities and resilience and its meaning. The expert lectures will be given by stakeholders from each of the partner countries (Finland, Bulgaria, Greece, the Netherlands and Slovakia). The groups will innovate solutions and propose actions to increase the communities' resilience. The groups will work in close cooperation with different stakeholders.

The students will learn about Finnish food culture and participate in an online cooking class. The students will also plan and implement a joint cultural evening.

Methods of execution:

The course will be implemented online and consists of three phases:

- **Preliminary tasks (15 May - 6 June)**
 - 25 - 30 hours
 - Presenting yourselves online, background research, designing the evening activity, starting the learning diary
- **Hackathon process (7 - 14 June)**
 - 64 hours
 - Introduction to innovation processes and tools, expert lectures, group work, coaching, joint activities
- **Final tasks (15 - 17 June)**
 - 11 - 17 hours
 - Finalising the learning diary

Study material:

Howspace platform

Student selection:

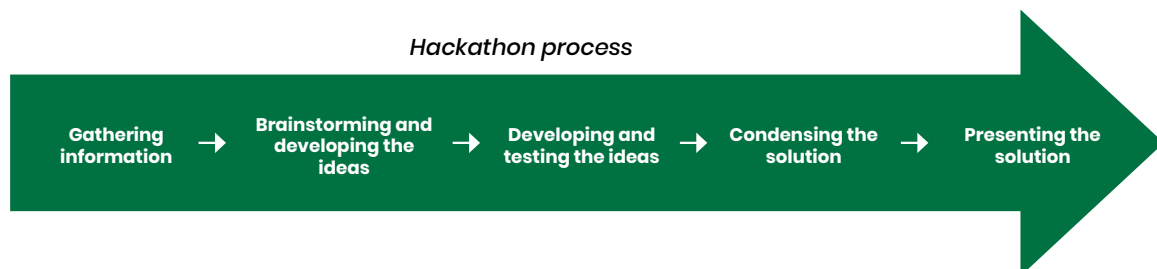

- Minimum requirements for English language level is B2
- BSc (you should have completed two years of studies), MSc or PhD student.

Each partner university will select 5 students. You should send your application to your respective coordinator by 30 April 2021. Your application should be in the form of a motivation letter or video, including your motivation for taking the course and how you plan to utilise the information you will gain from the course.

Course evaluation:

1-5. The evaluation of the course is based on the approved completion of the course assignments, expert evaluation of the presentation and report of the solution and participation in joint online meetings. The solution will be evaluated as follows: innovativeness, potential for uptake, potential for further development and the novelty value of the idea.
